- Presentation of 4 ongoing projects (Ghana, Indonesia, Colombia, Germany)
- Different situations - partly similar issues
 - Data:
 - In some cases abundant but not meeting all requirements of GBEP indicators (quality, specificity)
 - in other cases real data gaps.
 - Attribution to bioenergy
 - finding simplified approaches in line with experts
 - Practicality
 - key aspect → shall be major issue for further discussion within the AG2

Way forward

- Posting of findings on the online platform
