

**2<sup>nd</sup> Bioenergy Week Summary**  
**Round table discussion among policy makers, business sector  
and international banks/funds – Lessons Learned – Part I (7 May 2014)**  
*Moderator: Pjotr Schade, Everest Energy Group*

Participants were invited to identify and prioritize difficulties in the development of a project.

<b>Difficulties</b>
<ol style="list-style-type: none"><li>1. <b>Structuring projects to be attractive for finance</b></li><li>2. Finding accessible and affordable project facilitation services</li><li>3. Uncertainty of policies</li><li>4. Making bankable business plan</li><li>5. Co-funding needed for eligibility</li><li>6. Difficulty to get developer and recipient speaking the same language</li><li>7. Compensation – cost of development</li><li>8. Skill manpower</li><li>9. High transaction costs</li><li>10. Environmental licenses</li><li>11. Clarity on targets both for developer and finance</li><li>12. Identify interested company/partners</li><li>13. Unfavorable exchange rate</li><li>14. Cost of facilitation services</li></ol>
