

Activity Group 7 “Biogas” Programme of Work

Constance Miller, GBEP Secretariat

Objective

- Exchange knowledge, skills and technologies on biogas and its sustainable production and use
- Bring together stakeholders to facilitate this exchange and foster collaboration, including capacity building in some developing countries
- Collaborate with, or complement the work of, other initiatives working in this area

Voluntary contribution

State of Biogas in the World: 2017

- “State of Biogas in the World: 2017”
- Prepared by Meghan Sapp with kind contributions from the Clean Energy Solutions Center (CESC)

A Clean Energy Solutions Center Ask an Expert Policy Solution

Prepared by Meghan Sapp, PlanetEnergy SL

A baseline study prepared as a voluntary contribution to the Global Bioenergy Partnership

Future potential deliverables

- Capacity building through **e-learning webinar series**
 - Consorzio Italiano Biogas (CIB)
 - CIBiogas-ER (Brazil)
- **Webinar/Workshop** based on outcomes from **State of Biogas in the World: 2017**
- Convene a **virtual group of country experts** with the purpose of developing a spatio-temporal model of energy systems for the analysis of sustainable value chains
