

Task Force on Sustainability

Conclusions from 17th Meeting, 29 October 2019, Rome

*Takashi Hayashi, Annalisa Zezza
and Ahmed Abdelati (co-chairs)*

Implementation Guide

- By 4 November 2019, the Environmental subgroup leader will send the text for the env indicators
- The final agreement on the text of the environmental indicators will be made by 31 December 2019
 - The Implementation Guide will then be uploaded to the GBEP website as a live document, together with the Attribution Paper

Implementation Guide

- Dissemination
 - Germany is kindly contributing to produce a short brochure
 - An interactive video or dashboard will also be prepared

Tool to facilitate implementation of GSI

- An addendum to the Scope of the Work of the TFS will be developed by the GBEP Secretariat and circulated by the end of the year with the objective to develop a data entry tool
- Countries who have already implemented the GSI will contribute to this work
 - Takashi Hayashi from Japan has volunteered to coordinate

Bioenergy and the bioeconomy

- GBEP Secretariat will continue to monitor activities on bioeconomy carried out by P&Os and will work to maintain alignment by P&Os on key messages
- In relevant bioeconomy events, the P&Os along with the GBEP Secretariat will continue to publicise the message on sustainable bioenergy and to share the vast experience of GBEP
- Argentina, Brazil, Germany, Sweden and IEA Bioenergy have volunteered to prepare a document on a timeline of work on this topic by **31 December 2019** to be approved electronically

Thank you
