

# Activity Group 4

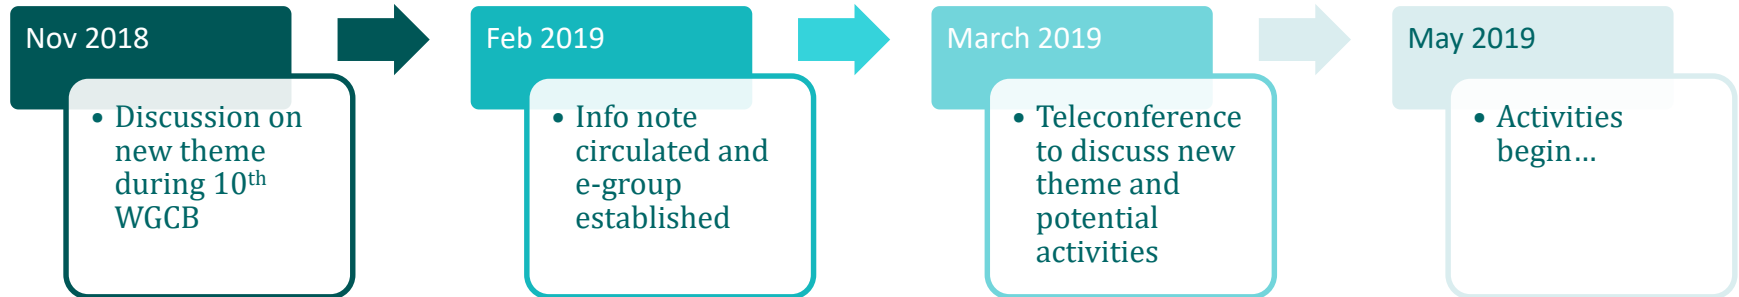

*"Towards Sustainable Modern Wood Energy Development"*

---

*Olivier Dubois (AG4 Leader)*

# Update: New theme

- AG4 theme expanded to include ‘woody biomass for forest landscape restoration (FLR) and sustainable livelihoods’

# Activities

- Collection of ‘Examples of Positive Relationships between Sustainable Wood Energy and Forest Landscape Restoration’

 Global Bioenergy Partnership		<small>WORKING TOGETHER FOR SUSTAINABLE DEVELOPMENT</small>	
Examples of Positive Relationships between Sustainable Wood Energy and Forest Landscape Restoration			
<b>TEMPLATE FOR SUBMISSIONS</b> <b>(max 5 pages in total)</b>			
<b>Title of the example</b>			
Please insert a concise and ‘visual’ overview of key results / messages / lessons learnt / best practices from your chosen example. (Please use concise sentences that can be turned into bullets)			
<b>Introduction</b>			
<b>Geographic location:</b> <i>identify the country and specific location within the country</i>			
<b>Type of example:</b> <i>policy, practice/approach, specific project/activity/business model</i>			
<b>Status:</b> <i>specify whether the example is currently being implemented and indicate start and end dates, if known</i>			

# Activities

- Template circulated to GBEP P&Os in May 2019
- Four best practices received – One of these will be presented today by ICRAF

# Additional contributions

---

- GBEP/GIZ/IEA Bioenergy project:  
'International dialogues on forest landscape restoration and wood energy'
  - Aims to: facilitate raising awareness and dialogue among stakeholders from both FLR and bioenergy communities
  - Tiziana Pirelli (FAO) will provide more information on this project...
