

Activity Group 8

"Advanced Liquid Biofuels"

Constance Miller (GBEP Sec)

2019 Activities

Collection of advanced biofuels best practices and policies

- Collection of advanced biofuels best practices and policies
- Four best practices and policies received - Some examples will be presented today.

WORKING TOGETHER FOR SUSTAINABLE DEVELOPMENT

Activity Group 8 – Advanced liquid biofuels

TEMPLATES FOR SUBMISSIONS

Best practices and experiences in advanced liquid biofuels

<p>Title of the example</p> <p>Please insert a concise and 'visual' overview of key results / messages / lessons learnt / best practices from your chosen example.</p> <p>(Please use concise sentences that can be turned into bullets)</p>
<p>Introduction</p> <p>Geographic location: identify the country and specific location within the country</p> <p>Type of example: policy, practice/approach, specific project/activity/business model (incl. type of advanced biofuel pathway, feedstock, etc.)</p> <p>Investment: type of investment (private sector/governmental) and time period of investment</p> <p>Linkage of conventional (CBs) and advanced biofuels (ABs): does your Example include information on how CBs could be used as a bridge towards ABs? If yes, how was this achieved?</p>

WORKING TOGETHER FOR SUSTAINABLE DEVELOPMENT

National and regional policies

Implementing Agency/Ministry		
Policy/Activity Name		
Legal and regulatory instruments	Policy/Activity Type	
	Existing Legislation	
	Policy/ Activity Target Area	
Impact on bioenergy	Direct	
	Indirect	

Further activities (for 2020)

- Dissemination and discussion of findings on policies and best practices in interactive *webinars*
- Production of a *report* on the collection of best practices and policies, as well as the outcomes/conclusions/recommendations gathered during the webinars. Cooperation with IEA, as Secretariat of the Biofuture Platform, to develop a joint report.
