

# GBEP AG6 Workshop

## Examples of Positive Bioenergy and Water Relationships

Royal Swedish Academy of Agriculture and Science , August 25-26, 2015

# The world needs more land use change

# Smart ways to displace food production and - possibly - cause iLUC

# Bioenergy systems: an opportunity to design processes and landscapes so as to promote improvements from a water perspective

# WS: rich material will make a very useful publication

- Presentations have contained rich visual material and further details on the examples of positive bioenergy-water links
- Need to consider this in the further planning of outcome publication
- Communication of innovative/complex solutions can be a challenge

Other conclusions....
