

WGCB - Next steps

AG 2 GBEP SI

- Coordinate the piloting of the Rapid Implementation Framework (RIF) developed by FAO/GBEP team

AG 3 Bioenergy Weeks

- **2022**
9th BW PARAGUAY (date tbd - possibly in person meeting) – inputs on Agenda requested to Ps&Os
- **2023**
10th BW VIET NAM (subject to availability of funds)

AG4 Wood energy

- Session at 2022 9th BW on links wood energy and FLR
 - update collection on positive linkages
 - develop a short brief on the basis of the BW 2021 session
- Events/webinar on biohydrogen

AG7 Biogas

- Session at 2022 9th BW
- Additional webinars in 2022

WGCB - Next steps

AG 8 Advanced Liquid Biofuels

- Additional webinars in 2022
- Keep updated the Collection of experiences

Bioenergy in displacement settings

- GBEP to liaise with Global Plan for Action on Sustainable Energy in Displacement Settings (GPA) to strengthen the role of bioenergy in the GPA discussions

Links BE with FS and Nutrition

- E-GROUP established (FAO/ESN leader)
- Contribute to literature review to explore the bioenergy-nutrition nexus

YOUTH

- Finalization of bioenergy supplement and piloting in collaboration with P&Os and YUNGA
→ Translated
- GBEP Youth Award 2022

→ **INPUTS** from Ps & Os on the various activities are kindly requested by **17 January 2022** including suggestions for GBEP events in 2022

TFS - Next steps

- **Rapid Implementation of GSI**

- **Rapid Implementation Framework** – Report to be finalized including inputs from Ps&Os, with a view to pilot it and raise funds needed to transform it into a webtool

- **Bioenergy in the context of the broader bioeconomy**

- GBEP to drive international discussion on this topic
 - Agreement on next steps including development of one working paper and a workshop in 2022, in collaboration with other relevant initiatives like Biofuture Platform, IEA, IEA Bioenergy etc.
 - GBEP to contribute to the BfP Workstream on Biomass quantification and sustainability governance

Additional info and updates

- **G20**

- GBEP Reported to the G20

- Our discussions with the G20 Presidency and GBEP members in the G20, allowed to get a specific reference to sustainable bioenergy

Para 28. ...We will cooperate on deployment and dissemination of zero or low carbon emission and renewable technologies, including sustainable bioenergy, to enable a transition towards low-emission power systems....

- **Energy Compact**

- GBEP Energy Compact was approved by UN-Energy and was presented during a side event at COP26
